Medical Emerging Markets Chief Medical  
Officer

### Prof. Torsten Olbers

Linköping University, Norrköping, Sweden

### Mr. Dimitri Pournaras

North Bristol NHS Trust, UK

### Dr. Anne Juuti

Helsinki University Central Hospital,  
Finland

## Overview

The **Johnson & Johnson Institute** proudly presents the **webinar series** entitled “**E-BARI DEBATE**”, which will take place every second month, always from 16:00 – 17:30 Central European Time. The **moderator, Prof. Karl Miller**, will introduce each time a different “**hot**” **topic**, which is currently discussed in the bariatric & metabolic community. For each E-BARI DEBATE he will invite **internationally renowned experts** and ask them to share their experience & knowledge. The **audience** will have the opportunity to **actively participate during Q&A and voting** sessions.

**This E-BARI Debate will focus on “Gastric Bypass 2.0”.** RYGB is still considered as the gold standard of bariatric surgery. However, a bad RYGB can be much worse than a good sleeve. Standardization of the RYGB is essential and needs to be established worldwide. The faculty will review the physiology underlying this procedure and share their insights of refining the RYGB technique to a “2.0” version.

## Program:
